1. About Teboza

Teboza is a friendly and ambitious family-owned business in Helden (the Netherlands) and the leading specialist in asparagus. We grow, harvest, and package asparagus and asparagus plants for customers throughout Europe.

Each season, we work alongside about 300 colleagues from various countries. Together, we make it not only a successful season but also a fun one. At Teboza, it's all about teamwork, getting things done, and a great atmosphere.

Respect is our top priority

We listen to one another, value our differences, and treat everyone fairly and with care. Respect is the foundation for trust, collaboration, and a strong, positive culture.

2. The work

At Teboza, you'll work and live alongside colleagues from different countries. You'll work in teams, and no two days are exactly the same. You may be scheduled for outdoor or indoor work. The specific tasks vary depending on the season.

Outdoor work

Early season: working in the greenhouses and preparing the fields

Peak season: harvesting asparagus

Late season: cultivating and preparing the fields for winter.

You'll be working outdoors, so sometimes in the sun, sometimes in the rain. The work is physically active: lots of walking, bending, and moving around. Perfect if you don't like sitting still.

Indoor work

In the warehouse, you'll help with:

- **Sorting asparagus plants**
- **Sorting, packing, and peeling asparagus**
- **Logistics tasks**

The work isn't physically demanding, but you'll be on your feet all day. We'll try to rotate you to different stations as much as possible.

Support and Growth from Day One

On your first day, you'll receive training on the job, the rules, and safety procedures. You're never on your own: there's always a team leader nearby to help you. Do you have a skill you'd like to use, or is there something you'd like to learn? Let us know, and we'll explore the possibilities together.
